Discussion

- Objectives for the 20-year review

- Comments:
  - too broad and unstructured
  - unclear on the expected outcomes
  - steps that should be adopted
Revised project “20 year review"

1. Prepare a compilation of ICRI’s achievements

2. Based on the compilation, develop a questionnaire survey for ICRI members to help improve ICRI’s relevance and value for its members.
Results from the study and questionnaire will be circulated to members before the 30th ICRI General Meeting in 2015.

Subsequent discussions, which will lend towards ICRI’s future directions.
Offers of assistance

- Francis Staub: compiling ICRI’s key achievements
- Christine Dawson: formulating the questions to identify the role of ICRI for each member
