Enhancing the ICRIForum

www.icriforum.org
The idea of developing the ICRIForum was borned in 1996, with the purpose of creating a website to make any information relating to ICRI and its secretariat available to a wide audience.

The ICRIForum was launched in 1999/2000, and redesigned in 2009.
Content

➢ ICRI at a glance: What is ICRI? | ICRI Members and Networks | ICRI News |

➢ ICRI Secretariat: Current Secretariat | Past Secretariats |

➢ ICRI Meeting: General Meetings | ITMEMS | Side Events | Regional Meetings |

➢ ICRI Document library
➢ Key topics
➢ About coral reef
News posted regularly
Banner on the home page
Creation of a section related to Rio+20
Hosting and management of the East Asia Regional Workshop pages
Creation of the 27th General Meeting page (all the report and presentation are already online)
ICRI members are encouraged to share their news.
This could be a powerful and useful tool but it needs to be up-to-date:

- ICRI Focal Point
- Information on coral reefs
- Information on MPAs, RAMSAR, WH, MAB sites with coral reefs

Each publication, report, news is linked to the member page.
Unique visitor
Number of visits
Future (possible) improvements

- Better integration of the ICRI related activities: GCRMN, CSI,...
- Reorganize the library
- Improve the key topics section

.... But what do you think is needed? What will be useful for you?
Next steps

• Send the member page form to all the members to update the member page

• Develop and email a survey to the ICRI members in order to receive comments on the ICRIForum

• Compile information and decide on the improvements to implement
The ICRIForum is the repository of all ICRI information and one of the only way to communicate ICRI work to a wider audience.

It is your website... Use it.
