**Subject: ICRI Membership Application**

Dear Sir,

On behalf of the Coral Triangle Center (CTC), we would like to cordially request your review of our ICRI membership application. We fully support the Continuing Call to Action and the Framework for Action of ICRI.

CTC is an Indonesian independent non-profit organization based in Bali focusing in marine conservation in the Coral Triangle eco region. Established in 2010, our works have a regional scope and global impact.

CTC provides education and training to ensure that marine protected areas within the world's epicenter of marine biodiversity are managed effectively. CTC supports on-the-ground conservation programs through our learning sites in Nusa Penida in Bali, the Banda Islands in Maluku and working on setting up a field learning site in Atauro Islands, Timor Leste. CTC aims to expand its outreach and impact with the CTC Center for Marine Conservation in Bali, which serves as a center of excellence for marine conservation training programs and outreach activities to influence approximately 1.5 million people by 2020 to protect and care for the oceans and those that depend on it.

We are one of the developing partner of the Coral Triangle Initiatives on Coral Reefs, Fisheries and Food Security (CTI-CFF). With partners, we helped established effective learning networks: the Women Leaders' Forum and the Maritime Local Government Networks advancing learning exchanges amongst leaders in the six Coral Triangle countries to manage their marine resources effectively.

ICRI membership will expand our network and strengthen our collaborative efforts with fellow members and other stakeholders in the conservation of the coral reefs

Thank you for your kind attention. We look forward to your review.
