

**Amendments to Terms of Reference for the Ad Hoc Committee on  
Enforcement and Investigations**

*(not to be substituted for current ToR, but rather, as an addition)*

The Terms of Reference for the Ad Hoc Committee on Enforcement and Investigations are amended as follows:

The Ad Hoc Committee will explore and, if feasible, develop appropriate tools, including educational and marketing tools, to enhance the on-going efforts of countries to address the illegal trade in wildlife products associated with coral reefs.

In doing so, the Ad Hoc Committee should reach out to new partners that are already working in this area, including the Coalition Against Wildlife Trafficking, the Convention on the International Trade in Endangered Species, TRAFFIC, and Interpol, with a view to complement existing efforts.
